

Kingston DataTraveler Secure — Privacy Edition

five-year warranty | free technical support

Protects 100 percent of your data with 256-bit hardware encryption.

Secure, waterproof and fast, DataTraveler® Secure — Privacy Edition (DTSP) offers unique protection to safeguard critical data even if the drive is lost or stolen. It's an enterprise-grade USB Flash drive with 256-bit hardware-based, on-the-fly encryption — 100 percent of the stored data is secure, with no public area to expose files. Its strong password rules and lock-down control protect against brute force attacks. These advanced security features make DTSP ideal for corporations and service organizations that require employees to transport large digital files consisting of confidential documents. DTSP helps companies avoid the financial and legal consequences of lost or stolen data.

With its impressive 24 MB/sec. read and 10 MB/sec. write speeds, DTSP performs at the top of its class, and it offers capacities up to 4 GB to give users plenty of room to store critical business data.

DTSP's waterproof rating continues to keep data safe even if you're caught in the rain or it's submerged in water. For added protection, DTSP is designed with a rugged, titanium-coated stainless steel casing.

For added peace of mind, DTSP is backed by a five-year warranty and legendary Kingston® reliability, service and support.

Optional Accessories

- **KUSBAP** – DataTraveler Accessory Kit

Features/Benefits:

- **Full Privacy** – 100 percent of stored data is protected by 256-bit Advanced Encryption Standard (AES) hardware-based encryption
- **Fast** – data transfer rates of up to 24 MB/sec. read and up to 10 MB/sec. write*
- **Secure** – drive locks down after 10 intrusion attempts
- **Strong password protection** – password is user-set with minimum characteristics** to prevent unauthorized access
- **Waterproof***** – protected against water damage
- **Easy to use** – just plug and play into a USB port
- **Compatibility** – Win 2000 SP3 or higher, Win XP SP1 and above.
- **Guaranteed** – five-year warranty
- **Customizable** – co-logo program available

Specifications:

- **Dimensions** – 3.06" x 0.9" x 0.47"
(77.9 mm x 22 mm x 12.05 mm)
- **Capacities†** – 512 MB, 1 GB, 2 GB, 4 GB
- **Compatibility** – designed to USB 2.0 specifications
- **Operating temperatures** – 32° F to 140° F
(0° C to 60° C)
- **Storage temperatures** – -4° F to 185° F
(-20° C to 85° C)
- **Minimum System Requirements**
-Pentium III processor
-USB 2.0 compliant and 1.1 compatible

Kingston part numbers:

DTSP/512, DTSP/1GB, DTSP/2GB, DTSP/4GB

*Speed may vary due to host hardware, software and usage.

**Requires minimum length and combination of mixed-case letters, numerals and special characters.

***Up to 4 ft.; conforms to IEC 60529 IPX8. Product must be clean and dry before use.

†Please note: Some of the listed capacity is used for formatting and other functions and thus is not available for data storage. For more information, please consult Kingston's Flash Memory Guide at kingston.com/Flash_Memory_Guide.
