

PUBLIC CLOUD STRATEGY ADVISORY- AWS

Works to understand your existing workloads and teams' skills to ensure a powerful AWS cloud adoption.

HOW DOES THE SERVICE WORK?

The service will use the best practices defined in the AWS Well-Architected Framework (WAF). In addition, for large enterprises, the service will adopt the principles found in the AWS Cloud Adoption Framework (CAF) to align your business and technical strategies.

AWS offers many migration solutions to help migrate workloads from on-premises environments, hosting facilities, or other public clouds. The service will advise which solution is the best fit.

Our service will recommend the most appropriate services for transferring and modernising applications, websites, databases, storage, physical and virtual servers, or even entire datacentres. We will also identify the AWS funding programmes that best suit your needs.

You will receive an AWS Strategy and Planning workshop and a corresponding output document afterwards.

BENEFITS TO YOU

People

It helps you understand your organisation's existing cloud adoption skills gaps and advises you on how to achieve their cloud goals with the people and skills you have available.

Flexible AWS architecture improves business agility, while automation allows staff to increase the pace of innovation and dedicate more time to important tasks.

Platforms

It clearly defines the most effective way for you to adopt and make the most of using AWS Cloud.

Commercial

Cost reduction is the most popular migration motivator, as retiring legacy infrastructure and moving to more efficient AWS solutions is virtually certain to bring costs down.

SUITABLE FOR YOU IF...

- ✓ You want to make the most of your AWS environment.
- ✓ You are looking to migrate infrastructure to AWS.
- ✓ You are looking to modernise applications with AWS.
- ✓ You are looking to understand high-level costs for your new AWS environment.
- ✓ You are looking for high-level guidance on where to use AWS for your business.

WORKS WELL WITH

Public Cloud Automated Adoption Accelerator - (AWS AAA)

Simplifying your cloud journey with a standardised, automated deployment of AWS with transparent costs.

Public Cloud Migration Assessment - AWS

Providing the best route to AWS following the AWS Well-Architected Framework.

AWS Optimisation and Licensing Assessment (OLA)

Helps you build a migration and licensing strategy for AWS.

WHAT'S INCLUDED

Expert Guidance – We follow the AWS Cloud Adoption Framework to ensure the very best route to cloud control.

Tailor-Made Solutions – We work with you to understand your business objectives before building a solution to meet your needs.

Clear Reporting – We provide a concise strategy report tailored to your goals, with actionable insights and recommendations.

Optional Execution – Our AWS team is available for migration and/or modernisation.
