MOVE OUT
Fuel migration success

Moving to the cloud has a wealth of benefits, but the road to sure-fire results isn’t always obvious. The dazzling promise of digital transformation often gets dampened by the headache of managing it all. You may be left wondering which workloads will benefit from migration and where you should protect on-premises to prevent downtime. We’re here to cut through this confusion.

WHAT IS THIS SERVICE?

Our Azure Migration Assessment gets you going by guiding you towards the migration path that will make the biggest difference to your business. We’ll connect the dots and light up where you can spark ongoing cost savings to fuel a truly flexible approach to the cloud.

HERE’S HOW:

• Analysing the bigger picture: using sophisticated tooling, we’ll assess your environment and uncover a high-level analysis of your infrastructure.
• Investigating your estate: from exploring your essential business drivers and justifications to discovering what’s getting in the way of your transition, we’ll ensure your approach is the best fit for your goals.
• We’ll light the way: our Microsoft experts give you everything you need to revive your workloads, including a detailed report complete with sizing recommendations, estimated costs and a roadmap for your migration.
