In today's world, employees want more flexible remote work options, and meaningful in-person collaboration. Empowering people to thrive in a more flexible work world requires rethinking everything, from how you empower managers, to how you create culture, to how you reimagine the employee experience.

EMPLOYEE EXPERIENCE, BUT NOT LIKE YOU KNOW IT

As your employees are challenged with a growing imbalance between work and life, increased burnout and decreased wellbeing, your teams and organisation face diminishing social capital. There is an urgent need to digitally reimagine the employee experience.

Discover how Microsoft Viva, an integrated platform built on top of Microsoft Teams, helps organisations deliver personalised experiences to their employees, with news, tasks and conversations, provide data-driven insights and recommendations, organise content and expertise, and deliver formal and informal learning when and where it's needed.
