

POWER UP YOUR PERFORMANCE

Level up the employee experience with intuitive Windows 11 and Softcat expertise

GET MORE FROM YOUR MOVE

With Windows 11, you gain a powerhouse of productivity to reinvent the modern workspace. It gives your people everything they need (and want) to succeed, and that helps your business move onwards and upwards.

Whether you're already embracing what's possible with its intuitive user features and next-level business security, or considering making the move soon, there are several migration considerations. So, you may need some support to get the most out of it.

Softcat is here to help you enjoy Windows 11 to the fullest; advising, architecting and implementing complementary technology and services – so you can achieve what you need to.

EXPLORE THE PERSONAS

Click on the persona that best represents your users to discover which Windows 11 features they could benefit from, and some example devices and desk setups that could suit their workstyle.

HIGH PERFORMANCE USER

For your colleagues who need seamless access to high-powered applications and large files, as well as the ability to easily collaborate with internal – and potentially external – teams.

The features of Windows 11 that will be beneficial to high performance users are:

Optimised performance

Windows 11 has a range of optimised performance improvements – including prioritisation of apps and processes, reduced disk footprint and instant resume from sleep.

High performance power plan

This Windows 11 power plan is designed to deliver constant high-performance levels – ideal for colleagues with latency-sensitive workloads.

Hardware compatibility

Featuring seamless integration with newer hardware, Windows 11 provides a more efficient, responsive user experience.

Help high performance users work at their best, each day, with the following devices and supporting accessories.

HIGH PERFORMANCE USER

DELL Technologies

intel.

Precision 5680

High-powered, with a large display, this thin and light workstation delivers improved app performance, intelligent audio for crystal-clear collaboration and unmatched connectivity. It's built for working in creative applications, such as graphic design, video editing and production.

MOBILE USERS

For your colleagues that spend most of their time on the road travelling between locations or working environments. They are highly mobile and need to have the ability to work or attend meetings from anywhere.

The features of Windows 11 that will be beneficial to mobile users are:

Phone Link app

This app allows users to access text messages and photos from their phone directly on their PC – allowing for seamless transitions between devices when working on the move.

Windows Hello

Perfect for users that need security when working in varied locations, Windows Hello allows biometric authentication methods like fingerprint scanning and facial recognition to level up protection for hybrid workers.

Help mobile users work at their best, each day, with the following devices and supporting accessories.

MOBILE USERS

OFFICE WORKERS

For your colleagues that are predominately desk-based, in a single, regular office location. They will need to be able to collaborate with clients, suppliers and their colleagues, and may occasionally work from home, but this won't be their norm.

The features of Windows 11 that will be beneficial to office workers are:

Improved user interface

The modernised Windows 11 user interface includes an easier to navigate Start Menu with simpler ways to find apps and recommended documents. This results in a better experience for users who interact with these elements every day.

Snap Groups

With Windows 11, users can organise open windows into groups, snap them to specific screen areas and toggle between them with ease. This can improve productivity and simplify multitasking for busy teams.

Windows Hello

For added in-office protection, Windows Hello allows users to deploy biometric authentication methods like facial recognition and fingerprint scanning to log in simply and securely.

Help office workers perform at their best, each day, with the following devices and supporting accessories.
