

MICROSOFT FUNDED WORKSHOPS, DELIVERED BY SOFTCAT

# ENDPOINT MANAGEMENT WORKSHOP

**MANAGE AND PROTECT YOUR DEVICES,  
YOUR APPS AND YOUR USERS**

## WORKSHOP HIGHLIGHTS

 **Improve** your Secure Score with Microsoft Endpoint Manager

 **Learn** how to build management policies that protect your users, company data and devices

 **Gain** insights about your users' endpoints and their compliance with your IT policies

 **Determine** the best way to give your users access to the apps they need on the devices of their choosing

How are you managing your mobile devices, laptops and other user endpoints? Do you know if your users' devices are compliant with your IT policies?

## ENABLE USERS TO BE PRODUCTIVE, ON ANY DEVICE, WITHOUT COMPROMISING IT SECURITY

Today's users are looking for more ways to remain productive while working on any device. 95% of organisations allow personal devices in the workspace. All these devices add additional risks, when you consider that 70 million smartphones are lost every year.

With users asking for more ways to work the way they want, this workshop will show you how to manage both company-owned and user-chosen devices in the cloud.

"Modern device management encompasses a wide range of areas including user protection, adding/removing devices, managed applications, end user support, and rolling out new capabilities"

— FORRESTER 2020 MICROSOFT 365 ENTERPRISE TOTAL ECONOMIC IMPACT STUDY\*

\*A commissioned study conducted by Forrester Consulting™ on behalf of Microsoft, June 2020

## WHY YOU SHOULD ATTEND

Experience the power of modern device management within your own environment.

This workshop will show you how to leverage intelligent security, risk-based controls, zero-touch provisioning, advanced analytics and deep integration to the Microsoft products you already use. By attending, you will:

- **Learn** how to improve your management capabilities with Microsoft Endpoint Manager
- **Discover and protect** your endpoints by enforcing policies and deploying security tools
- **Secure** your users' identities with multi-factor authentication and conditional access from any device
- **Enable** your users to be productive with the applications they need, on the devices they want

# WHAT TO EXPECT

Get an executive deep dive into remote deployment, management and the security of corporate and BYOD devices in your organisation. Our goal is to show you the best ways to manage endpoints at the enterprise level. We'll provide you with the ability to protect your authorised users' identities so you can authenticate credentials and manage access while still giving users the freedom to collaborate with others.

## WE'LL WORK WITH YOU TO:

Learn how to improve your management capabilities with Microsoft Endpoint Manager

Enable your users to be productive with the applications they need, on the devices they want

Discover and protect your endpoints by enforcing policies and deploying security tools

Secure your identities with multi-factor authentication and conditional access from any device

## WHO SHOULD ATTEND?

The workshop is intended for security decision-makers such as:

- Chief Information Security Officer (CISO)
- Chief Information Officer (CIO)
- Chief Security Officer (CSO)
- Endpoint and Device Management owners/decision makers
- Application business owners
- IT Security
- IT Operations
- Security Architect
- Security Engineers

## WHY SOFTCAT?

**When it comes to Microsoft, you need an experienced partner.**

Softcat is a certified Microsoft Gold Partner, and our workshop facilitators are subject matter experts within the Microsoft 365 realm. With multiple Advanced Specialisations including Threat Protection, our experts bring a wealth of knowledge to the table, and will guide you to ensure that you achieve your full potential via the workshop.
