

Power up your performances

Level up the employee experience with intuitive Windows 11 and Softcat expertise.

Get more from your move

With Windows 11, you gain a powerhouse of productivity to reinvent the modern workspace. It gives your people everything they need (and want) to succeed, and that helps your business move onwards and upwards.

Whether you're already embracing what's possible with its intuitive user features and next-level business security, or considering making the move soon, there are several migration considerations. So, you may need some support to get the most out of it.

Softcat is here to help you enjoy Windows 11 to the fullest; advising, architecting and implementing complementary technology and services - so you can achieve what you need to.

Explore the personas

Empower your workforce with devices designed for the way they work. From everyday productivity and mobile-first working to technical workloads and executive leadership, the right device can help employees stay productive, connected, and secure wherever work happens. Explore our carefully selected range of Windows 11 and Copilot+ PCs, aligned to key user personas and modern business needs, helping you deliver exceptional experiences today while preparing for the opportunities of tomorrow.

Standard users

Ideal for employees who need reliable performance for everyday tasks, including email, web browsing, collaboration, and office applications.

Performance and mobile users

Designed for power users and frequent travellers who need enhanced performance, long battery life, and the flexibility to work from anywhere.

Developers and engineers

Designed for power users and frequent travellers who need enhanced performance, long battery life, and the flexibility to work from anywhere.

VIPs / Executives

Premium devices for senior leaders who need exceptional performance, mobility, and a high-end user experience.

Standard user

Lenovo

ThinkPad T14 Gen 7

A reliable AI PC for the office worker's everyday. The ThinkPad T14 Gen 7 pairs Intel Core Ultra 7 processors with 16GB memory and 512GB storage, so Teams calls, Office workloads and Copilot-assisted tasks run smoothly across a full working day. ThinkPad durability and security, built in.

intel

Performance and mobile users

Lenovo

ThinkPad T14s Snapdragon Gen 6

Ever look for a file you know you saved, but can't find anywhere? Copilot lets you recoup valuable time you would have spent searching – with just a few spoken words, your assistant will scour apps and platforms across your system. Plus, create images, draft content, even get help with coding and generate action items and translation from meetings.

Qualcomm and Snapdragon branded products are products of Qualcomm Technologies, Inc. and/or its subsidiaries.

Performance and mobile users

SAMSUNG

Samsung Galaxy Book6 Pro Business

A 14-inch business laptop made for the road. Intel Core Ultra 7, 16GB memory and 512GB storage carry full meeting days. Galaxy AI features and Copilot+ PC support keep transcription, summarisation and search responsive between locations. Light enough to carry, strong enough to lead the meeting room.

[Find out more on eCAT](#)

Surface Pro 11

A Copilot+ PC sized for the bag and made for the meeting. The Surface Pro 11 runs a Snapdragon X Plus processor with a 45 TOPS NPU. Copilot, transcription, and live captions keep working between locations. Wi-Fi 7 holds the connection on the move, and the detachable design shifts from tablet to laptop in seconds.

Qualcomm and Snapdragon branded products are products of Qualcomm Technologies, Inc. and/or its subsidiaries.

[Find out more on eCAT](#)

Surface Pro for Business

A lighter Copilot+ PC for travelling staff who want a smaller tablet. The 12-inch Surface Pro runs a Snapdragon X Plus processor with a 45 TOPS NPU. Copilot and meeting prep stay quick on the move. It weighs 686 grams, and the kickstand and detachable keyboard turn it into a laptop at the desk.

Qualcomm and Snapdragon branded products are products of Qualcomm Technologies, Inc. and/or its subsidiaries.

VIPs / Executives

DELLTechnologies

ThinkPad X1 Carbon G13

The ThinkPad X1 Carbon Gen 13 Aura Edition weighs less than a kilogram, so you can manage it with one hand – and open it easily with one finger. But the best part? This super-thin laptop includes lots of connectivity options to hook up a monitor, quickly charge other devices, transfer files, and even plug in a headset if you're old school.

[Find out more on eCAT](#)

Dell Pro 14 Premium

A 14-inch Copilot+ PC built for the road. Intel Core Ultra 7 268V, 32GB memory and 512GB storage carry multi-app meeting days, while on-device AI keeps Copilot, transcription and meeting summarisation responsive when the connection drops. Wi-Fi 7 and a full-day battery round out the mobile kit.

[Find out more on eCAT](#)

+ Pair it with:

Dell Pro 14 Plus Portable Monitor P1425

Slip a 14-inch second screen into your bag. The P1425 powers from a single USB-C cable, sets up in seconds and folds flat for travel, so a hotel room or coffee shop becomes a two-screen workspace.

Amplify your experience with Softcat services

Getting the most from your technology is about more than choosing the right device. Softcat's Workspace and Microsoft specialists help you create a productive, secure, and future-ready workplace, ensuring your people have the tools they need to perform at their best.

From user persona mapping and device selection to modern management and deployment, our experts work with you to align technology to business needs, optimise user experiences, and maximise the value of your investment in Windows 11 and Copilot+ PCs.

Our services can:

- Identify areas for cost saving and prioritise investment
- Fill any skills gaps in best practice and delivery
- Enhance user experience
- Reduce risk in migration

Services to consider:

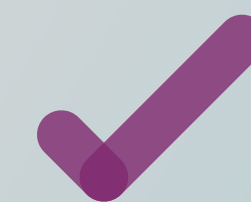

Voice of the user survey to support device selection, user persona mapping and workstyle analysis

Application Packaging Services to support application compatibility and delivery

DEX Service to support digital experience strategy, device performance and hardware selection

Managed Device Lifecycle to support business-as-usual JML activity

Autopilot Accelerator Service to help with Autopilot migration and Intune management

Migration Services to support with project based device refresh

Unlock the Potential of Modern Work

Empower your people with the right devices, experiences, and AI-powered innovation to help them work smarter every day.
