

MICROSOFT FUNDED WORKSHOPS, DELIVERED BY SOFTCAT

SECURE MULTI-CLOUD ENVIRONMENTS WORKSHOP

GET A CUSTOMISED THREAT AND VULNERABILITY ANALYSIS OF YOUR HYBRID AND MULTI-CLOUD ENVIRONMENT, AND LEARN HOW TO BUILD A MORE ROBUST CLOUD SECURITY SYSTEM

WORKSHOP HIGHLIGHTS

Discover threats and vulnerabilities in your hybrid environment

Learn how to prioritise and mitigate potential threats to your servers and services

Understand what can be done to reduce the attack surface area for hybrid workloads

Learn about benefits and capabilities of Azure Defender and Azure Network Security

Develop defined next steps based on your needs and objectives

Do you have a good understanding of security vulnerabilities in your hybrid and multi-cloud environment including VMs, databases, Azure storage and more? Are you aware of the number of suspected authentication activities across your multi-cloud environment?

IMPROVE YOUR CLOUD SECURITY POSTURE WITH A SECURE MULTI-CLOUD ENVIRONMENTS WORKSHOP

As the use of cloud services continues to grow, cyber risks and threats continue to evolve. Get help achieving your hybrid and multi-cloud security objectives, and identify current and real threats, by scheduling a Secure Multi-Cloud Environments Workshop.

We can help you develop a strategic plan, customised for your organisation and based on the recommendations of Microsoft cybersecurity experts. You'll gain visibility into immediate threats and vulnerabilities across Azure, on-premises and multi-cloud environments, plus clarity and support on how to improve your security posture for the long term.

WHY YOU SHOULD ATTEND

Given the volume and complexity of identities, data, apps, endpoints and infrastructure, it's essential to learn how secure your organisation is right now, and how to mitigate and protect against threats moving forward. By attending this workshop, you can:

- Identify current security threats and vulnerabilities in your hybrid and multi-cloud environment
- Walk away with actionable next steps based on your specific needs and objectives
- Document your security priorities and needs for the benefit of key stakeholders
- Better understand how to accelerate your security journey using the latest tools

"Are you confident about the cloud security posture of your organisation?"

WHAT TO EXPECT

During this workshop, we'll partner with you to strengthen your organisation's approach to hybrid cloud security.

We'll help you better understand how to prioritise and mitigate potential attacks:

Analyse your requirements and priorities for a hybrid cloud security detection and response solution

Define scope and deploy Azure Defender in the production environment, onboarding servers and other selected services

Explore Azure Network Security capabilities and experience selected Azure Network Security products in a demonstration environment

Discover existing hybrid workload vulnerabilities and learn how to reduce the attack surface area

Discover threats to the included hybrid workloads and demonstrate how to investigate and respond to threats

Recommend next steps on proceeding with a production deployment of Azure Defender and Azure Network Security

WHO SHOULD ATTEND?

The workshop is intended for security decision-makers such as:

- Chief Information Security Officer (CISO)
- Chief Information Officer (CIO)
- Chief Security Officer (CSO)
- Data Protection Officer
- Data Governance Officer
- IT Security
- IT Compliance
- IT Operations

WHY SOFTCAT?

When it comes to Microsoft, you need an experienced partner.

Softcat is a certified Microsoft Gold Partner, and our workshop facilitators are subject matter experts within the Microsoft 365 realm. With multiple Advanced Specialisations including Threat Protection, our experts bring a wealth of knowledge to the table, and will guide you to ensure that you achieve your full potential via the workshop.
