

MICROSOFT FUNDED WORKSHOPS, DELIVERED BY SOFTCAT

# MITIGATE COMPLIANCE & PRIVACY RISKS WORKSHOP

INTELLIGENTLY IDENTIFY INSIDER RISKS

## WORKSHOP HIGHLIGHTS

-  **Uncover** hidden insider risks in your environment
-  **Monitor** user behaviour and communications for risky behaviour
-  **Assess** your environment against key data protection standards
-  **Receive** an analysis and report on findings and associated risks
-  **Learn** about tools and services that can mitigate risks
-  **Explore** recommendations and next steps

For the majority of organisations, external cybersecurity risks have been top of mind for many years. But these organisations are now considering the risks posed by trusted insiders as an equal or even bigger threat. Organisations are beginning to recognise the importance of establishing controls that enable them to quickly identify and manage insider risks.

## INTELLIGENTLY INVESTIGATE AND TAKE ACTION ON INSIDER RISKS

Detecting, investigating and acting on malicious and inadvertent activities in your organisation is critical to ensuring trust, creating a safe workplace and protecting company assets.

The Manage and Investigate Risk Workshop gives you the insights you need to understand insider risk in your organisation.

## WHY YOU SHOULD ATTEND

As your business-critical data expands and your workforce shifts to remote work, having an integrated approach that can help quickly identify, triage and act on risky insider user activity is more important than ever.

By attending this workshop, our experts will work with you to:

- Document your **objectives and strategy** around insider and privacy risks
- Show how to **detect, investigate and take action** on insider and privacy risks
- Demonstrate ways to **accelerate your compliance journey** with the latest Microsoft technologies
- Provide **actionable next steps** based on your needs and objectives

“93% of organisations are concerned about insider risks”

— INSIDER RISK MANAGEMENT  
MICROSOFT MARKET RESEARCH,  
JANUARY 2021

# WHAT TO EXPECT

**As part of the workshop, we will run a User Risk Check which is designed to uncover risks that might be harmful to your organisation. The User Risk Check is the core activity of the Manage and Investigate Risk Workshop.**

The activity is spread out over several weeks to allow time to run on top of your cloud infrastructure and discover and identify insider risks in your organisation. User Risk Check leverages automated Microsoft 365 tools and services to monitor user behaviour and communication to discover inadvertent or malicious behaviour that can impose risk to your organisation.

## WHO SHOULD ATTEND?

The workshop is intended for security decision-makers such as:

- C-Suite
- Chief Information Security Officer (CISO)
- Chief Information Officer (CIO)
- Chief Security Officer (CSO)
- Identity and/or Application owners/decision makers
- IT Security
- IT Operations
- Security Architect
- Security Engineers
- Application business owners

### **The automated discovery process will monitor user behaviour and communication for:**

- Data leaks, accidental oversharing or malicious intent
- Data Theft by departing employees
- Inappropriate communication and offensive language
- Sensitive information
- Conflict of interest
- Art of the Possible immersion experience to showcase Microsoft Teams as your hybrid meeting solution
- An evaluation of your current meetings and meeting room capabilities

### **By the end of this workshop, experts in Microsoft compliance will provide you with a:**

- User Risk Check Report that includes findings and insights from the automated discovery process
- List of recommendations and actionable next steps that will help mitigate the identified risks
- Clear look into Microsoft's approach to mitigating and controlling insider and regulatory risks
- Data Protection Baseline assessment report with suggestions and top key improvement actions
- Set of long-term recommendations on your compliance strategy, with key initiatives and tactical next steps

## WHY SOFTCAT?

### **When it comes to Microsoft, you need an experienced partner.**

Softcat is a certified Microsoft Gold Partner, and our workshop facilitators are subject matter experts within the Microsoft 365 realm. With multiple Advanced Specialisations including Threat Protection, our experts bring a wealth of knowledge to the table, and will guide you to ensure that you achieve your full potential via the workshop.
