PUBLIC CLOUD MIGRATION ASSESSMENT – AWS

Softcat

Providing the best route to AWS following the AWS Well-Architected Framework.

HOW DOES THE SERVICE WORK?

Getting the best out of your cloud is vital. Choosing the workloads that will benefit from migration and those that should remain on-premises is important, but it's not always clear how to make these decisions.

Using sophisticated tooling, we assess your environment and develop a high-level analysis of your infrastructure. Alongside this, we explore your essential business drivers and work with you to understand your key desired outcomes.

It's essential to see what's getting in the way of your transition so we can develop a solution that takes the best approach to achieve your goals. As an output, you will get a detailed report showing sizing recommendations, estimated costs, a roadmap for your migration, and expert advice.

BENEFITS TO YOU

People

Our AWS migration teams will work closely with you to create a roadmap for your journey to the cloud.

We will tailor our services to best support your users and provide solutions that match your organisation's needs.

Platforms

Our AWS experts will analyse infrastructure and workloads, compared with your business drivers, to recommend the best course of action for your environment, optimising the balance between cost and performance.

Commercial

We will provide a detailed report with advice, estimated costs, and recommendations to highlight the benefits of any proposals. We will look at the bigger picture of your environment, not just a point in time, to ensure you have everything you need for your cloud journey.

SUITABLE FOR YOU IF...

✓ You are looking to move to AWS.

✓ You want to make the most of your cloud environment.

✓ You're looking to kick-start your cloud environment.

✓ You need expert advice and help with the best route to adopting AWS.

✓ You need a repeatable AWS landing zone deployed.

WORKS WELL WITH

Public Cloud Strategy Advisory - AWS

Setting you up for success in the cloud by giving tailored advice to help reduce the challenges involved.

Cloud Platform Service

Optimises and manages AWS and Microsoft Azure spending, providing upfront cost-efficiency, guidance on cloud and software spend and centralised procurement.

Public Cloud Automated Adoption Accelerator (AWS AAA)

Simplifying your cloud journey with a standardised, automated deployment of AWS with transparent costs.

WHAT'S INCLUDED

Initial assessment - We analyse your infrastructure to see the bigger picture so we can offer the most useful and relevant advice.

Understanding your drivers - Looking at the wider picture, considering business goals and objectives and what's hindering progress.

Tailormade solution - Every solution we create is bespoke to the needs and requirements of your organisation and people.

Clear reporting - Detailed reports, advice, estimated costs and recommendations to show the benefits of any proposals.

Expert advice - Our team are AWS experts, skilled in migrations with experience in identifying efficiencies.
