

# CITRIX CLOUD READINESS ASSESSMENT

Providing a structured assessment and overview of your existing Citrix infrastructure to evaluate readiness for a migration to Citrix Cloud.

## HOW DOES THE SERVICE WORK?

We carry out a structured assessment, providing an overview of your existing Citrix infrastructure. Using a set of tools and workshop discussions, our Citrix-certified technical consultants look at your existing Citrix infrastructure, licensing and profile management. In addition, they will review your hypervisor and Active Directory policies as well as your network connectivity, other applications including antivirus and your monitoring processes. A report is then prepared, outlining the findings along with a recommendation summary and remediation guidance.

The right cloud environment can provide numerous efficiencies and benefits for your organisation including cost savings, improved security and flexibility. Assessing your readiness for migration ensures that together we take the best approach, to harness these benefits for maximum effect.

## BENEFITS TO YOU

### People

Moving to the cloud can be challenging and requires a lot of expertise and skillsets.

We provide a Citrix-certified technical consultant to work alongside you and your people, to understand your business objectives, ensuring we provide a service that is tailored to your unique needs. A comprehensive report is provided, detailing the findings of the assessment, alongside recommendations, guidance and a statement of works.

### Technology

Finding the right technology or platforms to move to the cloud can be complex. Our experts will lead discovery workshops with you to gather information, as well as using industry-leading tooling to provide them with key insights to your organisation. This ensures your platforms are supported and ready for the next steps.

### Commercials

Our comprehensive report removes some of the risk associated with moving to cloud by giving you a clear path, as well as advice and guidance on next steps. By having a clear route to cloud, you can ensure you do it right first time, saving on escalating costs and missed deadlines.

## SUITABLE FOR YOU IF...

- ✓ You have existing Citrix on-premise solutions and are considering a migration to Citrix Cloud.
- ✓ You're not sure of the best way to migrate to Citrix Cloud.
- ✓ You need to know the next steps and actions to take to be ready to migrate to Citrix Cloud.
- ✓ You are concerned about the challenges of moving to cloud.
- ✓ You'd like support from a Citrix-certified technical consultant.

## WORKS WELL WITH

### Citrix Cloud Accelerator Service

Simplifying the delivery and management of your Citrix Cloud environment at every stage of your journey.

### Citrix Health Assessment

Providing a point-in-time health assessment of your Citrix infrastructure to keep you up to date, safe and protected, reducing vulnerabilities.

## WHAT'S INCLUDED

**Understanding you** – We work with you to create a picture of your goals and objectives first. We then walk you through the assessment to ensure you are supported throughout.

**All in the detail** – Our discovery workshop gathers detailed information around key areas of your environment, to give us the right background so we can provide unique insights to your organisation.

**Tailormade assessment** – We carry out a bespoke assessment to give a clear and accurate picture of your readiness for a migration to Citrix Cloud.

**Expert guidance** – You're in safe hands with our Citrix-certified expert technical consultants who use industry-leading tooling to carry out the assessment as well as running discovery workshops to gather further information.

**Clear reporting** – To set you up for success, we provide a comprehensive report containing our findings, as well as advice and guidance on the next steps.
