

CLOUD PLATFORM SERVICE - AWS

Centralised management of your AWS consumption bills, SaaS procurement and ISV commercial relationships.

HOW DOES THE SERVICE WORK?

Softcat assumes billing and invoicing responsibilities for our customers from AWS. Softcat will provide one invoice for AWS consumption, including Marketplace.

You'll have access to our cloud billing support team, allowing you to query your invoices and bills directly with people who understand them best.

We provide our customers with free access to our cloud cost management platform, so you can benefit from best-in-class cost visibility and control.

BENEFITS TO YOU

People

We consolidate your monthly invoices to remove operational overhead, allowing you to focus on developing your AWS environment further, and offer service desk support with a centralised billing system.

Platforms

We provide free access to our cost management platform, allowing you to benefit from best-in-class cost visibility and control.

Commercial

We recommend agreement types, Savings Plans and Reservations.

We also negotiate and/or maximise strategic agreements, such as AWS EDP and the One Government Value Agreement (OGVA).

SUITABLE FOR YOU IF...

- ✓ You would like to move away from direct billing via credit card and benefit from consolidated monthly invoicing
- ✓ You would like a simplified and consistent billing experience, with billing support
- ✓ You would like to benefit from a cloud cost management platform
- ✓ You would like better visibility of your cloud spend and environment
- ✓ You would like further options to unify AWS Support with Billing

WORKS WELL WITH

AWS Optimisation and Licensing Assessment (OLA)

Helps you build a migration and licensing strategy for AWS.

AWS Security and Health Assessment

Ensuring your AWS environment is secure and running efficiently by identifying potential security risks and cost savings.
