**Q3 2019 trading update**

Softcat plc ("Softcat", or the "Company"), a leading UK provider of IT infrastructure products and services, today releases a trading update for the quarter ended 30 April 2019 ("the Period").

The Company continued to perform well during the Period and has delivered strong year-on-year growth across all income and profit measures. Performance drivers remained broad-based, with different technology areas and customer segments all showing growth.

The Board is therefore confident that full year results will now be slightly ahead of previous expectations.

Progress towards opening a new office in Birmingham is well advanced and likely to take place early in the next financial year.
