Q3 2020 trading update

Softcat plc ("Softcat", or the "Company"), a leading UK provider of IT infrastructure products and services, today releases a trading update for the quarter ended 30 April 2020 ("the Period").

The Company has traded satisfactorily during the period and delivered growth in revenue, gross profit and operating profit. Cash receipts from customers have remained broadly in line with normal trends.

There remains a high degree of uncertainty in the coming months and Softcat is not immune to the challenges faced by the wider economy. However, we have moved seamlessly to a remote working model and the Board is encouraged by the resilience of the business thus far.
