

Partner overview

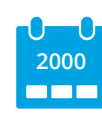

Cisco is a worldwide leader in IT, helping companies seize the opportunities of tomorrow by proving that amazing things can happen when you connect the previously unconnected. At Cisco customers come first and an integral part of their DNA is creating long-lasting customer partnerships and working with them to identify their needs and provide solutions that support their success. Cisco is forging a new global path in networking – transforming how people connect, communicate and collaborate.

Why Softcat for Cisco

Softcat and Cisco share a vision to build strong relationships. Softcat is a Global Partner Network agent and host, standing with Cisco for over 17 years and acting as a key partner to deliver Cisco's architectures.

Solutions we offer

End User Computing & Mobility

Mobilising users with the applications and services they need is important.

Datacentre

Cisco's portfolio of Cisco UCS integrated infrastructure and service solutions delivers consistent, highly secure and reliable business results.

Networking & Security

The open, programmable Cisco Digital Network Architecture (DNA) uses intent-based networking to allow users to make decisions faster, mitigate more security threats and manage connected devices more easily.

Services

Softcat provide a range of services to help organisations provision and manage their Cisco products within an existing infrastructure.

Software Licensing

Cisco ONE Software is a valuable and flexible way to buy software for datacentre, WAN and access domains.

Collaboration

Cisco Collaboration tools feature an intuitive touchscreen interface and every product shares the same user experience. No learning curve or barriers. Simply turn it on and go.
