

SNOW SOFTWARE

Partner overview

Snow Software is the largest dedicated developer of Software Asset Management (SAM) solutions supporting over 4500 organisations and 11 million devices worldwide. Snow are committed to providing the most cost-effective and appropriate asset management solution with a mission to stop organisations paying too much for the software and cloud services they consume.

Why Softcat for Snow Software

Softcat's partnership with Snow is so intrinsic that we have integrated their ITAM technologies into our own services. As a Snow Platinum Partner Softcat has over 20 highly trained and knowledgeable members within our IT Asset Management (ITAM) team with a wealth of industry experience.
