

HP

Partner overview

HP Inc. (HP) is an American global technology company based in California. Since 1939, HP has pioneered the design, development and manufacture of desktops, notebooks, workstations, printers and blended-reality devices. Although now separated from its sister business Hewlett Packard Enterprises, as of 2015 HP continues as a Fortune 500 company. Operating as an independent business has allowed HP to refocus its efforts and return to its roots - engineering and innovating around its core products to deliver superior commercial and consumer technology.

Why Softcat for HP

Softcat is one of HP's top five UK partners. As a Platinum Partner, HP has recognised our expertise in its technology and investment in our partnership. With a long heritage of working together, Softcat has emerged as a leader in HP technology, underpinned by our ability to design, consult and implement solutions, be that an ad-hoc device request or a full enterprise estate refresh.
