

PLATINUM RESELLER

# ADOBE

## Partner overview

Adobe Systems is an American software company based in San Jose, California, that specialises in the creation of software products and solutions to enhance the digital experience and empower the creativity of end-users. Adobe's solutions cover three key areas with very different functions: Document Cloud, Creative Cloud and Marketing Cloud. These enable users to create, review and e-sign documents, work on creative projects seamlessly across various applications, and use big data to inform marketing content respectively. Adobe's innovations consistently strive to transform new and exciting ideas into business realities.

Softcat is one of only seven Adobe Platinum Partners in EMEA, recognising our well-established partnership and elite status in their channel. As an Adobe reseller we have a dedicated Adobe team, that has first-class knowledge of all Adobe products and understand Adobe's Cloud Services inside and out. For our customers, it means we have experience in various digital offerings, from software packages to cloud based storage, and we can get the right option for you, quickly and with minimal fuss.

## Solutions we offer

### Software Licensing

Adobe's Creative Suite of applications has shaped and empowered the creative and digital media industries for years. Known for continually breaking new ground, this fast-paced innovation only looks set to accelerate with the arrival of Adobe Cloud Services and the world of new possibilities it brings.
