

HEALTHCARE

Overview

The NHS are being challenged by the need to transform the way they deliver care, whilst continuing to manage unprecedented demand. By harnessing technology, the NHS has an opportunity to meet the challenge head on and improve outcomes, patient experience and efficiency. Our experienced healthcare team offers dedicated support to the NHS, providing a range of technologies and consultancy services, to help NHS organisations accomplish true digital transformation.

Why Softcat for Healthcare?

Our dedicated team contains healthcare technology experts with specific knowledge of the NHS and current emerging issues. We are skilled at focussing on your organisational needs and managing relevant resource across a portfolio of technologies, clinical partners and services.
