

EDUCATION

Overview

Our offering covers all levels of education, providing tailored solutions from schools to colleges, through to university level. Our approach is always the same; to understand your requirements, explore the wider objectives, followed by delivering a great value solution to help you meet your goals.

We offer a wide portfolio of IT solutions and as we aren't aligned to one vendor, we assess the best options to meet your requirements. The education team is always on hand to offer consultation and advice on any IT requirements you have, from simple requests to complicated IT projects.

Why Softcat for Education?

Softcat has extensive experience within the education marketplace, which allows us to understand the challenges that many institutions face. Our team recognises the challenges posed by limited budgets, and will help you maximise your investments in technology.

Dedicated education teams focusing on schools, colleges and universities	Number 1 ranked supplier on SUPC Software License Resellers Agreement for UK universities	Specialist team to assist with technology implementation	Longstanding vendor relationships	Secure procurement through major education frameworks	Specific UK university frameworks	Focus on specific strategies such as 1-2-1 device schemes and digital transformation	Support students in preparing them for their careers
		e-Procurement catalogues for simple procurement	Multi-vendor approach		Presence across many regions of the UK		Supporting education establishments with careers fairs talks

Softcat's commitment is to building long-term relationships with customers, and this is evident in the way they insist on selling to us solutions which both meet our needs now and which we can trust as we move into the future.

Nick Cragg, Head of IT, University College School

Education frameworks we deliver

We sit on several higher education frameworks, giving university customers access to a wide range of IT products and services. Through frameworks such as JISC Network Equipment, SUPC SSSNA, NEUPC HE Networking Supply and Services, SUPC ITRAP, NEUPC Audio Visual and the SUPC Software License Resellers Agreement, we are able to offer a one-stop-shop facility. Other UK public sector frameworks such as NHS SBS LINK Solutions and CCS Technology Products 2, can also be accessed by our education customers to securely procure a wide variety of IT requirements.

RM3733 Crown Commercial Service Technology Products 2	CPC Software Licenses & Associated Services	RM3804 Crown Commercial Service Technology Services 2
RM3808 Crown Commercial Service Network Services 2	RM3821 Crown Commercial Service Data and Application Solutions	RM1557.11 Crown Commercial Service G-Cloud 11
