

# LOCAL, REGIONAL & CENTRAL GOVERNMENT

## Overview

Our team of experts support central and local government organisations, as well as housing associations and charities across the UK. Holding a deep knowledge and understanding of the market, the team has experience scoping, designing and implementing bespoke solutions around core pillars of IT – data centre and infrastructure; networking and security; and software licensing.

## Why Softcat for Local, regional & central government?

Our regionally aligned teams have over 50 years' experience among them, covering central and local government as well as housing associations and charities. Our team take a multi-vendor approach, matching up the vendor to the specific needs of each organisation to provide a tailor-made solution that meets your objectives.

Softcat's team of industry professionals are knowledgeable, helpful and fully conversant with the very latest technologies and how they can be leveraged to help transform IT Services.

Giles Letheren, CEO, Delt Shared Services Ltd

## Local, regional & central government frameworks we deliver

We sit on the top frameworks for government, such as CCS Technology Products 2, Technology Services 2, G-Cloud 11 and Network Services 2. We also offer other UK-wide framework routes, such as NHS SBS Link Solutions, HTE ComIT 2 and KCS Software & Services, alongside specific regional framework options within Scotland and Wales.
